SPECIAL THANKS TO OUR SPONSORS

Principal Sponsor

Talk Safety with us - WorkCover NSW is proud principal sponsor of the Safety Show and Conference 2010. We invite you to visit us at our stand E2 as you first enter the Dome or participate in one of our presentations on the Mezzanine floor.

Keynote Speaker Sponsor

Safe Work Australia is the national organisation with primary responsibility to improve work health and safety and workers compensation arrangements in Australia. One of Safe Work Australia's primary functions is to develop a Model Work Health and Safety (WHS) Act, supported by model WHS Regulations, model Codes of Practice and a national compliance and enforcement policy for adoption across Australia. Safe Work Australia consists of representatives of the Commonwealth, state and territory governments, the Australian Council of Trade Unions, the Australian Chamber of Commerce and Industry and the Australian Industry Group.

Behaviour Stream Sponsor

Onetest can identify high risk workers and help reduce workplace safety incidents. Onetest is Australia's leading provider of online work safety tests. A wide body of research shows that, regardless of workplace safety training, policies and procedures, some people are more likely to cause accidents and injuries than others due to their attitudes and beliefs. Many of Australia's leading mining, manufacturing and construction companies use Onetest's 10-minute online Work Safety Test to identify high risk workers and reduce lost time injuries, lower workers' compensation costs, reduce sick days and reduce risk of personal liability for directors and senior managers. Contact Onetest on 1300 137 937 or visit www.onetest.com.au/safety to find out more.

Lanyard Sponsor

Established in 1992, Integrated has become a national leader in the provision of recruitment, labour hire and managed labour services. We are one of the most experienced and well-respected recruitment organisations in Australia, providing innovative, cost-effective and complete employment solutions across all industry sectors. Integrated forms a part of the Programmed Group, a \$1.30 billion listed company specialising in the provision of staffing, maintenance and project services. At a local, state and national level, we customise our recruitment and labour hire services – from the provision of a single employee through to a complete managed labour force. Our solutions are readily scalable and supported by a team of professionals with experience in Industrial Relations, Human Resource Management and HSE. At Integrated our philosophy is to understand the needs of our clients, then use our experience and resources to ensure we provide a service that gets you results. It's also a case of standing by those results and continually monitoring the relationship with our clients to ensure positive results are achieved for us both.

DAY ONE

TUESDAY
26 OCTOBER 2010

OPENING BREAKFAST

7.30am

Antarctic Operations and Managing Safety from Afar - A Systematic Approach to Risk Analysis and Risk Mitigation

Captain Terry Vickers

Executive Director,
Skytraders Pty Ltd

Antarctic operations present many challenges not the least is the ever present risk of the background environment. Good risk management is an essential part of a robust SMS. Continuous feedback and support to staff where the tyranny of distance during the summer season is an ever present feature of operations. There is a high focus on good communications and the retention of intellectual capital. i.e. do not relearn a lesson already learnt!

Sponsored by

KEYNOTE ADDRESS

9.30am

Safety in Leadership

General Peter Cosgrove
AC MC (Retd)

General Cosgrove will use his experiences in his numerous roles at all levels of command, on operations overseas, in Australia and in disaster areas to look at the critical impact safety considerations have on successful outcomes. Consider why a clear focus on safety need not mitigate against getting the job done.

Keynote Sponsor

The Hon.
Michael Daley

Mark McCabe

EMBARKATION

9.10am

Welcome to Country

Uncle Des Dyer, The Darug Landcare Corporation

9.20am

Official Welcome

The Hon. Michael Daley, MP, NSW Minister For Finance, Minister For Police, NSW Government

9.30am **Keynote Address – Safety in Leadership**

10.20am **Healthy Activity**

10.30am – 11.00am Morning Tea

LEGISLATING CHANGE – MODEL WORK AND SAFETY BILL WHAT ARE THE IMPLICATIONS? THE JURISDICTIONS RESPOND

11.00am

What Does This Mean For NSW?

John Watson, General Manager, WorkCover NSW

Enacting the Model Work Health and Safety Bill will bring changes for NSW businesses and workers. The extent of the changes will depend on the nature of businesses and their business relationships. Hear what the major changes are and how they will affect you.

11.30am

Work Safety ACT – Approach to Harmonised OHS Laws

Mark McCabe, ACT Work Safety Commissioner, WorkSafe ACT

In 2009 the ACT replaced its twenty year old OHS Act with a new Work Safety Act. Learn how the new Act was based on many of the principles and directions the national harmonisation process was taking at that point in time. As a result, the move to the new harmonised laws at the end of 2011 will be a much shorter step for the ACT than it will be for most OHS jurisdictions.

12.00pm

A New Beginning – National Work Health and Safety Laws

Melissa Ryan, General Manager Project Harmony, Comcare

With the new Work Health and Safety laws coming into effect on 1 January 2012, it is a significant milestone for all Australian employers and workers. Be updated on how Comcare is preparing the Commonwealth jurisdiction for a smooth transition to the new harmonised laws.

12.30pm – 2.00pm Lunch

HARMONISED LEGISLATION IN NSW HOW WILL IT BE IMPLEMENTED?

2.00pm

Employer Expectations

Greg Pattison, General Manager, Workplace Solutions, NSW Business Chamber

The development of harmonised safety laws is a major achievement but it will be wasted if the various regulators do not adopt a nationally consistent approach to their implementation. The business community is prepared to work with the regulators to ensure the benefits of harmonisation are realised.

2.25pm

Unions Expectations

Mark Lennon, Secretary, Unions NSW

Harmonised safety laws bring challenges to regulators, employers and workers. Unions in NSW will continue to a key role in ensuring that safety standards are maintained and that workers will have an effective voice on safety in their workplaces.

2.45pm

Transitional Arrangements – Communication Strategy, HSR Training, Harmonised Procedures, What do Inspectors do?

Bridget Barrett, Director, National WHS Legislation Program, WorkCover NSW

The success of harmonised legislation will depend on consistent application of these laws throughout Australia. WorkCover NSW, through its National Workplace Legislation Project is actively working to achieve this. It will also deliver comprehensive information and an education program to ensure NSW businesses and workers are ready for these changes when the Act commences in January 2012.

3.30pm – 4.00pm Afternoon Tea

4.00pm **Healthy Activity**

4.05pm

Harmonisation; Will it Work? Panel Discussion

Barry Sherriff, Partner, Norton Rose Australia, **Michael Tooma**, Partner, Norton Rose Australia, **Greg Pattison**, General Manager, Workplace Solutions NSW Business Chamber, **John Watson**, General Manager, WorkCover NSW, **Mark McCabe**, ACT Work Safety Commissioner, WorkSafe ACT, **Mark Lennon**, Secretary, Unions NSW, **Melissa Ryan**, General Manager, Project Harmony, Comcare. Be involved in this lively discussion, led by Norton Rose, with key stakeholders including Industry, Unions and Government, and consider how the new Harmonisation laws will work in practice.

5.00pm Welcome Drinks, Trade Show Hall

DAY TWO

WEDNESDAY 27 OCTOBER 2010 THE JOURNEY – TRIALS & TRIBULATIONS

KEYNOTE ADDRESS

9.00am

“The Gun” behind the Beaconsfield Mine Rescue Darren Flanagan

Darren received a call late on the Sunday night that Beaconsfield Miners Todd Russell and Brant Webb were discovered to be still alive. How that one phone call changed his life from that of an ordinary family man to a real hero of the great escape is an emotive, dramatic and inspiring story. Darren was nicknamed “The Gun” by Todd and Brant because he was the one who charged and fired the explosives that eventually released them from their tomb 925m underground.

10.20am Healthy Activity

10.30am – 11.00am Morning Tea

1.30pm

Demonstration of eLearning Simulation Program - Handling Dangerous Goods in the P&C Industry

Lynne Abbott

Abbott Training Systems and SimSkill

Demonstration of the simulation and eLearning program that has been developed for the petrol and convenience store industry using many resources and showcases SimSkill capability. It includes the latest IT and digital technology available today. The program was developed with a grant from WorkCover NSW and was launched in August 2010 to over 230 sites training up to 2,500 workers.

2.00pm

The View from Here: Tragedy to Prevention Shirley Hickman

Executive Director, Threads of Life

No one wants to join the club that Shirley Hickman leads. Shirley’s family suffered from the tragic workplace death of a family member. She gives a first-hand account of what it’s like to face a devastating loss and her determination to change a culture where many think injuries are “just the cost of doing business.”

SAFETY INSTITUTE OF AUSTRALIA CONFERENCE DINNER - ODYSSEY

7.00pm

Pullman Hotel, Sydney Olympic Park

Tickets \$95 for SIA members
and \$110 for non members (inc GST)

SAFETY CULTURE WISDOM IN TRANSITION

11.00am

Choices - Safety is a Choice You Make

Mr James Wood, Director, C&B Safe Pty Ltd

James will share his message of ‘Choice’, which he hopes will help other people to avoid the same mistakes he has made. James Wood made the wrong safety decision once and now he has to live with it for the rest of his life. Workplace accidents always seem to happen to other people. We think we are indestructible, we tell ourselves ‘It will never happen to me’.

11.30am

Making Safety Sexy - Selling Safety to the Masses

Mr Dave Whitefield, Principal Trainer, Baseline Training & Consulting

What if being safe was trendy? How much easier it would be to roll out the systems and procedures? So to borrow concepts from outside of our industry, we need to sell safety. Treat safety as a service and assume that not everyone automatically wants to buy what we have to offer. Consider the worker as the consumer of safety services, uncover why workers don’t buy them and learn sales strategies that can be implemented.

12.00pm

Improving Safety Culture Through Increased Personal Mindfulness

Mr Cristian Sylvestre, Principal Consultant, Safetrain Pty Ltd

Learn what is involved in more than 80% of incidents involving people and what can be done about it. Hear Australian case studies that show how total recordable incident rates can be reduced by up to 90% within 12-18 months and held there sustainably, demonstrating that increased personal safety awareness can go a long way to improve safety culture.

12.30pm – 1.30pm Lunch

LEGAL TIMES ARE CHANGING

3.00pm

National Model Regulations and Codes of Practice: Status Report on Their Development and How You Can Have Your Say

Julia Collins, Director, Model Legislation Branch, Safe Work Australia
Safe Work Australia is working on Model Regulations and Codes of Practice to support the Model Work and Safety Act. Be updated on their progress and be better equipped to participate in the public comment period when they are released towards the end of the year.

3.30pm – 4.00pm Afternoon Tea

MINING SAFETY MORE THAN ITS SEAMS

11.00am

Achieving World Leading OHS Culture - The Role of the NSW Mine Safety Advisory Council

Mr Tim Crakanthorp, Executive Officer, NSW Mine Safety Advisory Council (MSAC)

Gain insight into how MSAC has achieved a World-leading OHS Culture in the NSW mining and Extractives Industry through consultation with stakeholders, site and industry benchmarking, providing a one stop website for industry, promoting a range of fact sheets and much more.

11.30am

Diesel Engine Shutdown Systems for the Mining Industry

Mr Keerthy Mysore, Principal, Shakti Corp Pty Ltd

Mariusz Dudzik, Managing Director, NTMS Pty Ltd

Gain insight into the stages involved in designing Diesel Engine shutdown systems for conformance to requirements of Functional Safety Standards and hazardous area applications to IECEx and ATEX. Learn how a safe shutdown is activated in adverse conditions.

12.00pm

Safety & Ergonomic Issues in Personnel Transport Vehicles for Underground Coal Mines

Mr Robert Smith, Master of Design Candidate, Monash University

A concern in the Australian underground coal mining industry is that current personnel transporters have many deficiencies in ergonomics and safety. This literature review aimed to discover the crucial factors to be addressed in the design of a new personnel transporter. Be updated on the results of the review including that Rough Roads and Whole Body Vibration are two main contributors to ergonomic and safety issues in underground personnel transporters.

12.30pm – 1.30pm Lunch

HOW CAN I HELP YOU TO BE A BETTER OHS PROFESSIONAL

3.00pm

1200 BC A Heroic Unsafe Odyssey, 2010 AD A Hygienic Safe Odyssey Getex

Culture and the classics plus fun and entertainment: Homer’s original epic where the hero wins by being stronger and where lots of people die, will be acted out and contrasted with some modern occupational hygiene approaches where people don’t die and everyone is a hero. Topics are indoor air quality, mould, and dust and the equipment used.

3.30pm – 4.00pm Afternoon Tea

4.00pm Healthy Activity

4.05pm

What is a Specialist Occupational and Environmental Medicine Physician and How Can They Help Those Working in the Broader OHS Field

Dr Matthew Paul, Director Occupational Medicine, NSW Medical Services Medibank Health Solutions

Gain insight into how to utilise occupational physicians to get the best result for you and your organisations/employees and hear specific examples of how Occupational Physicians can assist those working within OHS and hear how to work through complex issues.

4.30pm

Public Access Defibrillation Program

Mrs Christine Barber, Project Manager, St John Ambulance Australia

Project HeartStart Australia demonstrates automated external defibrillators can be operated safely and effectively by minimally trained and untrained lay responders. To date 14 lives have been saved demonstrating the benefits of early access to defibrillation.

5.00pm Concludes

INVESTIGATIONS MORE THAN A METHODOLOGY

11.00am

Not Enough Incidents

Mr Cristian Sylvestre, Principal Consultant, Safetrain Pty Ltd

Do we think that the reason why people still get hurt is because we haven’t had enough incidents? Or could it be that perhaps we are not asking the right questions? Learn how we think incidents are caused and why most of our corrective actions do not address the initiating behaviour that caused the incident in the first place. Consider a new two stage model for incident behaviour incorporating human error. Consider a fundamental question that must be asked during incident investigations but hardly ever is, and learn how incident investigation processes can be improved to fully understand the root cause.

11.30am

Hazard Identification and Incident Investigation

Gabrielle Carlton, Director, Fidelity Injury Risk Management

Learn why the specific hazard involved in an event is central to effective incident investigation and why it is often the most difficult investigative task. Define incident investigation factors and consider benefits comparatively with traditional simplistic and regulatory definitions. Assess investigator competency requirements in relation to hazard identification, the process that necessarily follows identification, and the expectations of the Regulators.

12.00pm

The Investigator’s Toolkit for the Everyday World

David Skegg, A/Dean of College of Fellows Safety Institute of Australia

There are many models of how to construct an incident investigation; some simple, and some highly complex. Consider a simple model that any practitioner can use, with little chance, if any, of missing vital components, regardless of the severity of outcome. It has been derived after years of on the ground investigations by the author, and has sound academic foundations. Deceptively simple, easy to remember, and able to be used by any levels of practitioner.

12.30pm – 1.30pm Lunch

WORKING TO A STANDARD

3.00pm

Selection and Use of Respiratory Equipment

Terry Gorman, Occupational Hygienist, 3M

Consider the essential components of Australian Standards AS/NZS 1715 and 1716 from an end user’s viewpoint. Issues covered will include hazard identification, potential health effects, selection options and correct use and care of respiratory protective equipment. Also discussed will be the necessary elements of a respiratory protection program. There will also be a brief discussion of future developments in these standards.

3.30pm – 4.00pm Afternoon Tea

4.00pm Healthy Activity

4.05pm

Selection and Use of Hearing “Protection” Program

Peter Knott, Senior Occupational Hygienist, 3M Australia Pty Ltd

The provision of hearing protection is often made on the basis of noise measurements which inadequately describe the level of risk. Examine the selection process described in AS/NZS 1269 “Occupational Noise Management” series and gain tips for safety practitioners embarking on a hearing protector program or those wishing to improve their existing hearing conservation practices.

4.30pm

Understanding AS 1891, A Practical Approach

Mr Gordon Cadzow, Secretary, Fall Protection Manufacturers Association

The AS/NZS 1891 Series of Standards currently consists of 4 individual parts. Part 4 of the Standard is specifically directed at the users of height safety equipment. Whilst it is vital that all those involved in height safety are familiar with this part of the Standard – including the key revisions issued in late 2009, understand the key parts of the latest Standard and learn the most significant changes from the earlier version.

5.00pm Concludes

DAY THREE

THURSDAY 28 OCTOBER 2010 TRIUMPH

KEYNOTE ADDRESS

9.00am

Emerging Issues in OHS - The Brave New World of Genetic Selection and Nanoparticulates Dr Ian Gardner

Senior Physician in Occupational & Environmental Medicine, Defence Centre for Occupational Health

Emerging research shows that "safe" levels of exposure to many chemical and physical agents depends largely on individual genetic factors. Genetic screening may offer promise in identifying persons at extra occupational risk. Hear examples of new areas of occupational risk and novel exposure routes which must be considered in the manufacture, use and ultimate disposal of engineered nanoparticulates.

1.30pm

The Future of Australian Occupational Health and Safety Research: Establishing Some National Priorities Prof Derek Smith

FSIA, WorkCover NSW Research Centre of Excellence

A national research forum was held in 2009 to identify current and emerging issues relevant to OHS research in Australia and to formulate strategic research directions and strategies for the future. Be updated on the top priorities identified and the resulting strategic and operational plans.

2.05pm

Moot Court Mr Michael Tooma

Partner, Norton Rose Australia

The team from Norton Rose will host a mock trial on OHS illustrating through a case study the process involved with OHS trials in NSW and the legal consequences for OHS breaches. Don't miss this entertaining way to learn the scope of the duties, personal liability and the consequences of being hauled before the Court to explain your actions in the aftermath of an accident. Moderated by leading OHS expert Michael Tooma and acted by the Norton Rose Team. Audience participation will be encouraged.

WORKCOVER NSW SAFE WORK AWARDS DINNER

7.00pm

Bayside Grand Hall, Sydney Convention Centre, Darling Harbour
Tickets \$120 per person or \$1080 for a table of ten (inc GST).

BEHAVIOUR TO BE OR NOT TO BE SAFE

10.00am Healthy Activity

10.05am

Predicting Who Will Cause Workplace Safety Incidents Mr John Richards, CEO, Onetest Pty Ltd

Case studies from the mining and construction industries will be presented to illustrate how one short psychometric assessment can identify the 10% of people who will be responsible for 80% of LTIs and 55% of incidents irrespective of environmental factors. Examine how such tools have been successfully implemented in industrial environments, how internal corporate politics affects adoption, legal considerations and bottom line implications.

10.30am – 11.00am Morning Tea

11.00am

'Empower 7' A Step OHS&E Change Management Process Mr Kevin Berry & Mr Adam Crouch, Kevin Berry Consulting

A company's long-term success is determined, not only by its financial performance but also by its commitment to OHS&E. Learn how the 'Empower 7' process works and how it will help you improve your organisation's OSH&E culture. Gain a framework to work from so that you can start to implement positive change within your organisation.

11.30am

If I Can I Will Ms Genevieve Hawkins, General Manager, WSP Risk Solutions

Hear how in late 2009, BAE Logistics in the Central Region, with the assistance of a WSP coach, overcame a culture of "that's just the way you do it" to affect change across the business. Explore the framework that has been used to achieve engagement and the results so far.

12.00pm

OHS Harmonisation - Managing Health in a Coercive Powers Context Ms Kim Grady, Senior Associate, Hall & Wilcox Lawyers

Consider the impact of these draft laws and provides practical guidance for businesses on supporting and educating workers to prevent and manage health risks that may arise in this context.

DEFENCE SAFETY ENSURING SAFE CAPABILITY

10.00am Healthy Activity

10.05am

Development of a Human Systems Integration (HSI) Framework for Defence Mr PJ Fleming, Assistant Director Strategic Planning & Capability Development, Department of Defence

Gain insight into the implementation of a fully integrated HSI framework in Defence to improve the identification, elimination and management of human risks throughout all phases of the Defence Capability Lifecycle. The HSI Framework project is a significant body of work for Defence, given the nature and scale of human risk inherent in war-fighting capability acquisitions and its potential impact on capability effectiveness and the health and safety of ADF personnel.

10.30am – 11.00am Morning Tea

11.00am

The Evolutionary Journey of the Defence OHS Strategy Ms Angela Maples, Assistant Director Strategic Planning, Department of Defence

The current Defence OHS Strategy is a product of Defence's dynamic and flexible OHS strategic planning approach. Hear how the exploration of the priorities and drivers that stimulate the OHS strategic planning process have resulted in the development of a Strategy that articulates corporate OHS objectives, without attempting to define specific solutions. Discover how Defence is aspiring to deliver an aspirational OHS Strategy in a time of strategic reform, high operational tempo and ever changing Defence, Public Service and OHS environments

11.30am

The Critical Nature of Organisational Training: The Impact of Latent Failures in Training Systems Ms Kendra Hau, Defence Research Scientist, Defence Science and Technology Organisation

Consider the dormant deficiencies in training that act as latent failures, contributing to the chain of accident causation and/or crippling of an organisation's capability. Learn how Responsive Training Systems (RTS) which integrate all operational divisions across the organisation can critically enhance the quality and relevance of training adding to an organisation's layer of defence.

12.00pm

Managing Risk in a 21st Century Youth Development Organisation Lt Col Peter Gavican, Command Safety Manager, Australian Army Cadets

AAC has been conducting activities since 1866. The risks are well known, generally well managed and have seen little change. The same can not be said about the human factors. Consider the risk management system required to deal with a geographically dispersed organisation with an ageing group of volunteers mixed with a group of adolescents where common health issues are on the increase.

10.05am

Burn Out Blitz Mr Peter Bliss, Wellbeing Consultant, Holistic Services Group (Aust)

Consider the realities of working life - long hours, constant deadlines, eating on the run and insufficient sleep - and what these habits do to you. Learn how to change some of these habits and create a happier, healthier, and much more productive environment.

10.30am – 11.00am Morning Tea

11.00am

The Be Active At Work Project - An Australian First for Promoting Health at Work Mr Andrew Pitkin, Manager, Group Quality & Development

Gain insight into the development and implementation of the South Australian Governments be active @ work program. This intergovernmental, multi-level, online, workplace health program is an Australian first. Hear how inadequacies in similar programs have been overcome by focusing on best practice implementation including the provision of accurate and timely impact & outcome data.

11.30am

Multifactorial Health Programming - The 21st Century Approach to Health Change Miss Leanne Scanes, Managing Director, Corporate Bodies International

Employers have a responsibility to provide employees with health initiatives that reduce absenteeism, illness and injury rates, while increasing productivity, group cohesion and morale. Without a doubt, such initiatives improve the bottom line of business. Examine the range of issues currently of relevance to blue collar industry as well as present a range of case studies from NSW mine sites as well as international perspective. Including the successes and the lessons learnt.

12.00pm

Master Your Mind Dr Helena Popovic

If we don't run our mind, our mind will run us. No, we are not our mind. Our mind is our most powerful tool. And our most forceful opponent. Learn how to master it.
